

Dr. (Phd) Xavier Valero González

Director of AI & Advanced Analytics

As Director for AI & Advanced Analytics, Xavier is an experienced leader in driving AI transformation across the organization and is responsible for the global steering of all AI & Advanced Analytics activities within DEKRA. Together with his team, he is shaping impactful products and services using AI and Data Science for the TIC (Testing, Inspection & Certification) industry.

Xavier brings 15+ years of experience in data science and has a proven leadership track record in driving AI transformation, building up teams and converting data into impactful business models.

Furthermore, he has an extensive academic background with a MSc in telecommunication engineering as well as in Project Management, plus a PhD in Machine Learning.
